

GARDENS

DCM
Photography

Capture your garden
one flower at a time!

Celebrate your garden! You spend hours cultivating and nurturing your garden. From the first crocuses, to the blaze of lilies and the final colourful show of asters, gardens bring delight and joy. But, in Alberta, the garden season is over too soon.

With DCM Photography you can capture the beauty of your garden for years to come!

Prize-winning hybrids, succulent tomatoes and peppers, delicate wild blossoms all come to life in crisp, colourful and detailed images.

Photographer Doyle. C. Marko brings a wealth of experience to each subject he captures. His professional career spans dance, research and study in Europe, and two decades as Artistic Director of Edmonton's VinokWorldance.

His passion for photography has allowed him to capture scenes of traditional life throughout Europe, North America, and Asia.

An enthusiastic gardener himself, he can capture the hidden magic that dwells in each flower bed.

Doyle can capture your garden in exquisite detail and will make all photographs available to you in CD, DVD, or slideshow format.

To book, please contact Doyle directly:
